

## Dental Hyginx: Professional Strength Dental Humor

Dental Hyginx is a massive collection of drawings that focus on dentistry. The material that currently exists just didn't inspire me, so I wrote and illustrated my own book. There are probably more original cartoons (175+) in these pages than in all of dentistry. The idea is to let Dental Hyginx out of the bag and see what kind of traction it can get. The goal is to raise funds for charity dental care and try to give what I can back to the field of dentistry. Dentists and dental students everywhere - this one is for you. So, clean out a spot on your bookshelf and check out the fresh new world of Dental Hyginx. Author Biography Adam Brewer is a dentist from southern Oklahoma. He is to blame for everything within the pages of Dental Hyginx. Dr. Brewer graduated from Creighton University School of Dentistry in 2008, and currently practices at Advanced Family Dentistry in Healdton, Oklahoma. He is not a professional cartoonist, but definitely has an affinity for creating caricature sketches. Dr. Brewer has always been around dentists, and there are several in his immediate family. Maybe that explains the contents of these pages.
