

Britains Most Amazing Places

Discover Britain as youve never known it before, with Britains Most Amazing Places. Headers Digest and a team of experienced travel writers, whose credits include the Sunday Times, Holiday Which? and the Daily Telegraph among many others, have specially chosen the 1,000 most amazing places in Britain to feature in this book. From castles, cathedrals, stately homes and natural wonders to power stations, bellfoundries and even a water lower; this book reflects the diversity of fascinating places that Britain has to offer. Read about some of the worlds best early medieval stained glass, found in Canterbury Cathedral, and then turn to an entry on the ossuary at St Leonards church in Hythe housing 2,000 human skulls, or the Donnington Grand Prix collection at Donnington Park. Britains Most Amazing Places is a modern guidebook to Britain, and as such includes entries you wont find in most UK guidebooks. From the Umbrella Shop on New Oxford Street in London to the Oldbury Power Station on the River Severn and a Soviet submarine in Folkestone harbour this unique Conference guide will ensure that youll never see Britain in the same way again. The book is arranged by county and region for easy reference and includes a regional map for each section pinpointing the places featured as well as giving all the information you need to help you plan your visit. In addition, there are 54 special features, providing extra information about a particular topic relevant to the section in which it appears. Learn the history of the Somerset levels, what prehistoric Uffington was like, or discover more about the diversity of ethnic Leicester. Youll also find walks, with accompanying maps, in Bath, along the Birmingham canals and in Constables country. Whether youre looking for a place to visit or simply wanting to find out more about a region, youll find plenty of inspiration in Britains Most
