

Introduction to Director and Lingo: Multimedia and Internet Applications

Appropriate for freshman through graduate-level courses teaching Multimedia Design Using Director 7. This unique guide for Macromedia Director combines a traditional print guide with an interactive training CD that provides coverage of Director 7. Lingo and Shockwave, and shows how to use them to develop a multimedia project that can be used on the Internet. The project developed in the lessons also delves deep into the new Hybrid scripting features of Director which allows Director to send and receive information from the Internet in much the same way as a browser.
