

Always, If Not Forever

In *Always, If Not Forever*, Margaret Churchill offers an endearing letter to her late husband. The author evokes the vivid image and gentle manner of her late husband James, both her husband and her very best friend for over thirty years. Episodically, she brings to life James' struggle as a boy with a tyrannical stepfather, then as a middle-aged suitor proposing to her, later as a considerate husband, and finally, the beloved takes by death. Yet, she shares her certainty of his continued presence, although questioning the effectiveness of religion and his medical treatment. Here is a touching love letter to one who embodied the happy combination of husband and best friend, one that describes the affection that will warm the hearts of her readers. It is the story of a love that sparkled in its smallest moments.
