

## Some think Completely Different: 100+ Funny, Inspirational and Thought-provoking One-liners

A book about playing (around) with words differently, about being poetic differently, about making you smile differently, about inspiration and wit but differently. Mwah has formed his own signature style of getting to the core of matters by twisting familiar lines and pronunciations. The result is a book full of one-liners and language jokes. Recognizable yet renewing at the same time.
