Capcom Fighting Evolution includes popular characters from five classic titles in the Street Fighter and other Capcom series including Street Fighter II, Street Fighter III, Street Fighter Alpha, Darkstalkers, and Red Earth. This 2D game offers a diverse cast of players as well as additional hidden characters from each of these games. Each character maintains their unique fighting style from their respective title, so players must strategically use each ones combat system to defeat that of their opponent as they square off in battle. With two-on-two action, gamers can mix and match their team from any of the different games. The character change system allows players to choose a combatant for each round of the battle. Pitting the right competitor against the opponent based on the strengths of the fighting systems will be the key to victory. Not Final Cover.
