

Microsoft Office Word 2013: A Skills Approach, Complete

Triad Interactives, Inc. with Cheri Manning and Catherine Manning Swinson Microsoft Office 2013: A Skills Approach Office Skills on Demand! Microsoft Office 2013: A Skills Approach provides a truly unique approach to learning Office skills with its completely isolated skills for customized learning. Created from the learning side from SIMnet Online, McGraw-Hills online training and assessment program, this textbook has 1:1 content with SIMnet Online. As a result, students have access to specific, isolated skills needed for customized learning, making Office 2013: A Skills Approach the most flexible book on the market. This seamless integration also helps students practice and master computing concepts and Microsoft Office skills. Projects in SIMnet allow students to practice their skills in a live Microsoft Office application. Students receive immediate feedback upon completion of these auto-graded projects through SIMgrader. The integration with SIMnet helps meet the diverse needs of students and accommodate individual learning styles. Additional textbook resources can be found on the texts Online Learning Center:
