

## Chased by the Light: A 90-Day Journey-Revisited After the Storm

Award-winning nature photographer Jim Brandenburg gave himself a challenge: for ninety days between the autumnal equinox and the winter solstice, he would take only one photograph each day. This exquisite book, now in softcover, is the result of that bold and immensely personal project. Through the accompanying essay, Brandenburg shares his innermost thoughts and passions as he witnesses the cycle of nature near his home in the northwoods of Minnesota. Brandenburg also contributes new photos and an Epilog that illustrates and discusses the devastating summer wind storm that wreaked havoc on the locations photographed for the original project.
