

Chicagos Parks: A Photographic History (Images of America)

No other city in the world has a park system as great as Chicagos, which includes over 550 parks totaling more than 7,000 acres. Each park has its own story, as well as unique characteristics and history, and yet the majority of Chicagoans are not aware of the wealth, variety, and sheer number of parks that exist, to say nothing of the ideas they project, the history they commemorate, and the origins of their names. Chicagos Parks: A Photographic History seeks to remedy this oversight. From Chicagos first park, Dearborn Park, to its more famous parks of Grant and Lincoln, this book provides a wealth of information concerning the origins of the names and plans of these Chicago landmarks. A formal plan for the creation of a park system was developed in 1869, and soon Chicago had some of the greatest parks to be found anywhere in the world. When Chicago was founded in 1837, the citys fathers adopted the motto *urbs in horto*, or the city set in a garden. Despite the numerous changes that have taken place over the past 160 years, Chicago is still a city set in a garden. Chicagos Parks: A Photographic History captures the growth of that garden with its nearly 200 historic photographs.
