

## Cyberprotest: Environmental activism online

Uses case studies and voices of activists themselves to examine the role of the internet at all levels of environmental activism. Contemporary analysis of forms and processes of radical environmental activism. Documents the negotiations and achievements of environmentalists both in dealing with the tensions of using environmentally damaging technology and in avoiding surveillance and counter-strategies. Will be of interest to students and academics of politics, sociology, environmental studies and anyone who has ever wondered if signing an email petition will make a difference.
