

Learning Microsoft Office 2000

Learning Microsoft Office 2000 teaches the skills needed for proficiency in each application of the Office 2000 suite: Word, Excel, PowerPoint, and Access. Covers new Office 2000 features such as Personal Menus and updated Open/Save dialog box. Each lesson introduces a software topic quickly, without extraneous narration, then teaches you the functions with step-by-step directions. Screen captures, illustrated keystrokes, and mouse directions make learning easy. Follow-up exercises provide skill application while also honing critical thinking. Spiral-bound. 544 pages.
