

My Life as a Public School Teacher: Leave No Teacher Behind

My Life as a Public School Teacher: Leave No Teacher Behind is an autobiography about my thirty-year career as a middle school teacher in Florida. I will discuss the problems surrounding teaching, which include the system, also known as the administration; the parents and general public who lack respect for the classroom teacher, passing that attitude onto their children; and the children themselves who want to socialize and be disrespectful. I have combined stories of good experiences and memories I had of teaching students with not-so-good memories of administration and big brother tactics. I want to also share with my readers my experiences as a faculty representative of the teachers union. The birth of Hollywood was the greatest teaching experience of my life! A physical and psychological transformation occurred in me, which created the teaching of American history through rock n roll music. I want you to read and enjoy this book. You will laugh, cry and get really mad at the plight of teachers in America! After you read this book, I want you all to answer these questions: Why are teacher salaries so low? and Why are teachers not given the respect they deserve in America?
