

## Disney Years Seen Through a Photographers Lens

This is the third volume in the series of three 9x11 black and white 1950s Disney picture books. It contains over 60 photos including: Richard Nixon receiving the key to Disneyland, Fess Parker, Rivers of America, the Monorails construction, Skull Rock, the Matterhorn, and numerous photos of Walt Disney. Volume 1 A Photographers Life With Disney Under Construction & volume 2 Disney Early Years Through the Eye of a Photographer are also available. The all three volumes are a great historical documentation of this American icon.
