

## Our Sacred Garden: The Living Earth: Reuniting Us with Nature

Seronde reveals a potent movement of awakening people searching for ways to live in balance with the Earth, to heal themselves and the planet. To her, the garden is a metaphor for healing, for learning of the symbolic Sacred Garden, paradise of everyone's dreams, a source of resolution to love and nurture the Earth, not pollute, exploit and destroy her. Vignettes aplenty of inspiring visionaries leading the way.
