

ECDL 2000: Module 3 (ECDL3 for Microsoft Office 95/97)

Module 3: Word Processing This module develops your ability to use a word processing application on a personal computer. It will teach you how to accomplish basic operations associated with creating, formatting and finishing a word processing document ready for distribution. You will develop your competence in using some of the more advanced features associated with word processing applications such as creating standard tables, using pictures and images within a document, importing objects and using mail merge tools. Contains:

- *Computer terms and concepts explained in plain English
- *Screen images and illustrations to guide the student through the Microsoft Windows 95/98 and Microsoft Office 2000 applications
- *How to information based upon practical examples of everyday tasks.
- *Short cuts and insider tips drawn from real world experience of computer professionals
- *Summary of critical information
- *Easy to follow Exercises

Everything you need to pass the European Computer Driving Licence module by module
