

# Microsoft Excel 4.0 for Windows (O'Leary Lab Modules)

Adopting an accurate, readable, keystroke approach, this laboratory module gives brief hands-on introductory coverage of Excel 4.0 for Windows. Students learn to create a spreadsheet, manage a large spreadsheet, and create graphs. Also included are a discussion of Macros, review and practice exercises, a case study to emphasize concepts and provide realism, and shaded boxes and commands providing an effective action-result methodology. Also available is an Excel 4.0 for Windows Teaching Materials Set (ISBN 0-07-911554-3)
