

## Fever and Thirst: An American Doctor Among the Tribes of Kurdistan, 1835-1844

The first Americans to work with the people of the Middle East were neither spies nor soldiers. They were, in fact, teachers, printers, and missionaries; and one was a country doctor from Utica, NY. In June of 1835 Asahel Grant, M.D. and his bride, Judith, sailed from Boston to heal the sick and save the world. *Fever and Thirst* tells the story of Asahel Grant: explorer, physician, author and the first American to become enmeshed in the struggles of northern Iraq.
