

Improve With Improv!: A Guide to Improvisation and Character Development

This theatre book is a complete improv curriculum program divided into twenty class-length workshops. Each workshop contains carefully selected exercises designed to help students focus on one aspect of a character's personality. Students learn how to create characters from their own imaginations through the use of solo and ensemble pantomime, physicalization, vocal techniques, props, and more. Gestures, facial expressions, voice, and body language are studied in isolation. Many ensemble sketches are included. Also includes a class syllabus and guidelines, a character outline sheet to duplicate, character examples, and a recommended reading list.
