Their attraction was electric. Their affair explosive. And their love devastating to those around them. Despite being happily married, Taylor Allen found herself deeply attracted to singing legend and eligible bachelor Larry Davis. But, it remained a simple infatuation until she finds herself in the front row, center seat, at one of his most anticipated concerts. Their eyes meet and electricity arcs between them like a summer lightening storm. But, living a fantasy that millions of women dream of could come at a steep price. Written in a gripping, fast-paced narrative form, *Front Row Center* by first-time author Cynthia B. Ainsworthe, will have you hooked in the first engrossing paragraphs. What would it take to make a happily married woman cheat on her husband a woman who has been completely and utterly satisfied with her life up to this point? What would you do if your previously untouchable idol began lavishing you with love and adoration? Would you not want to dance to this forbidden rhythm a rhythm veiled in lust that conceals a deep, never-ending love? Clearly a master of romance, Ainsworthe delivers all of the fever pitched emotion that forces you to gulp the book down, like cool water on a hot day. The author's descriptive powers toss you into the tangle of lies and redemption so well that, all of a sudden, you realize your palms are damp and you're forgetting to breathe. As a winner of the prestigious Independent Publisher Bronze Award in the Romance Category, it's clear that this book is a success. Garnering critical acclaim, as well as many pleased national and international readers, Ainsworthe found her niche by following her passion and writing a book from her heart.
