

SERBIA BEST SINGERS AND ENTERTAINERS FROM OPERA TO POP AND FROM JAZZ TO FOLK MUSIC: Pioneers, Divas, Icons, Mega Stars, Legends, and New Talents. 6th Edition

This book is available in 2 formats (Paperback and Kindle) worldwide. Paperback available at www.lulu.com The book was printed in 2 versions: 1-In full colors (Deluxe edition), and 2-Black & White interior (Economy Edition). Published by Times Square Press, New York, Las Vegas, Hollywood, London, Berlin, Paris, Tokyo. Authors website: www.maximilliendelafayettebibliography.com This book should serve multiple purposes and objectives, but mainly: 1-To introduce the lovers of music, the media, critics and decision makers in the recording industry in the Western hemisphere, and particularly in the United States to those extraordinary artists in Eastern Europe who are not known yet in our part of the world, despite their extraordinary talent, and remarkable achievements in music, recording, singing, and showbiz; they do deserve a worldwide recognition. For years they have been isolated from the West, for obvious reasons. I hope this book will bring them an international exposure, and facilitate our rapport with them. Once, their creativity and talent are known to all those who are involved with music in any shape or form, and especially recording companies, impresarios and festivals/concerts organizers in the West and in the United States, their chances and opportunities for a global success and wider recognition will increase considerably, thus helping their career and future development. We do believe that many artists in Eastern Europe are as good as the best artists in America, and in some instances, much much better. 2-To preserve the musical heritage and legacy of remarkable Eastern artists. We were astonished to find out that many music lovers in Eastern Europe were not familiar with the pioneers of the music of their countries, and particularly the legends of yesteryears. And this is very alarming. This is why this book is important because in

addition to giving exposure to living artists and/or contemporary ones, it offers the readers an opportunity to get acquainted with outstanding singers, legends and pioneers who are still living but faded in their memory. Consequently, the present work will be useful to music lovers, historians and the media, both in the Eastern and Western Hemispheres. We are sure that we have missed many. We would be very grateful to you if you can shed more lights on other talented artists we are not familiar with, and/or you think they deserve our attention and respect. Please email us at delafayette6@aol.com.
