

George Frideric Handel: Volume 1, 1609-1725: Collected Documents (Collected Documents of George Frideric Handel)

The life and career of George Frideric Handel, one of the most frequently performed composers from the Baroque period, are copiously and intricately documented through a huge variety of contemporary sources. This multi-volume major publication is the most up-to-date and comprehensive collection of these documents. Presented chronologically in their original languages with English translations and with commentaries incorporating the results of recent research, the documents provide an essential and accessible resource for anyone interested in Handel and his music. In charting his activities in Germany, Italy and Britain, the documents also offer a valuable insight into broader eighteenth-century topics, such as court life, theatrical history, public concerts and competition between music publishers. This volume includes family documents from Halle, then covers Handels early career in Germany and Italy, followed by the period in which he became an established composer for Londons Italian opera company while also writing the Water Music and the Utrecht Te Deum for the British court.
