

In and out the garbage pail

A novel autobiography in which the author applies his theory of focusing on awareness, writing whatever wants to be written. Partly in poetic form, often playful, sometimes theoretical, the book is a many-faceted mosaic of memories and reflections on his life - in the past and at the moment - and on the origins and continuing development of Gestalt therapy.

This is an exact reproduction of the original 1969 Real People Press edition and includes all the original illustrations by artist Russ Youngreen.
