

# Innovators in Battery Technology: Profiles of 95 Influential Electrochemists

As the worlds demand for electrical energy increases, it will be the ingenuity and skill of brilliant electrochemists that enable us to utilize the planets mineral reserves responsibly. This biographical dictionary profiles 95 electrochemists from 19 nations who during the past 270 years have researched and developed ever more efficient batteries and energy cells. Each entry traces the subjects origin, education, discoveries and patents, as well as hobbies and family life. The breakthroughs of early innovators are cataloged and the work of living scientists and technicians is brought up to date. An appendix provides a cross-referenced timeline of innovation.
