

## Henry More, 1614-1687: A Biography of the Cambridge Platonist (International Archives of the History of Ideas Archives internationales d'histoire des idées)

This is the first modern biography to place Henry More's (1614-1687) religious and philosophical preoccupations centre-stage, and to provide a coherent interpretation of his work from a consideration of his own writings, their contexts and aims. It is also the first study of More to exploit the full range of his prolific writings and a number of unknown manuscripts relating to his life. It contains an annotated handlist of his extant correspondence.
