

Postwar Casualty: Canadas Merchant Navy

Merchant Navy veterans from World War II say they are getting a raw deal from Ottawa for having risked their lives in battle. This controversy has been on the burner for a long time but now its heating up as these veterans in their seventies square off against the Canadian government for recognition. During the Second World War, merchant seamen risked their lives on a daily basis crossing the Atlantic. As Winston Churchill boldly asserted, The Battle of the Atlantic was not won by our navy or air force; it was won by the courage, fortitude, and determination of allied merchant seamen. Yet, by the end of the war, these brave men received little recognition. In fact, they were often scorned. In this book, wartime Merchant Navy seaman Doug Fraser tells the story from the inside. Fraser is a retired news editor and writer for radio and TV. He is also the author of Noreast for Louisbourg.
