

How to Save Money Packing & Shipping on eBay: (Plus How To Pack Just About Anything)

If you're reading this book, you've either just started to sell online and want to know the best and most economical way to ship what you've sold, or you've been selling for some time and bitten the bullet on shipping costs that exceeded what you had anticipated. Losing money on shipping is just like selling your item for less than you wanted. Some or all of the profit you made on selling your stuff on eBay was just spent on shipping. So how do you avoid spending too much on shipping, or miscalculating what you should be charging for shipping? Hopefully this book will help you look out for your own interests a bit better, and will allow you to find real live honest to goodness facts that can help you save money and have a happier experience with your eBay selling. This book also includes chapters on how to pack just about anything. The author has spent years in the packing industry and shares his experience on how to pack priceless art, delicate antiques and glassware, intricate model sailing ships, geodes (fancy rocks), and machinery. The tips and techniques described in this book work, and can save you time, money and aggravation when packing.
