

How to Stop Seasickness: A guide to stopping sea sickness.

Written by a seasoned sailing and cruising family about self management at sea without any presumptions about the readers previous travelling experiences on the water. This specially crafted book is suitable for all types of travel at sea and gives good advice about how to keep safe and well under difficult circumstances, especially when facing more challenging voyages involving rough weather conditions. After using a small quantity of inexpensive seasickness medicine from a local chemist and by reading and understanding the approach described in this book the reader is certain to be in a position to be able to enjoy family moments, sunsets, wildlife at sea and of course enjoy a spot of fishing without any fear of upsetting their mind and body. An exceptional read - Jeff Harris, Sailing Expert A dedicated perspective that actually works - Michelle Dupont, Yachtswoman
