

Life in the Hill Country: The Other Iowa

William Uncle Bill McLain was born in 1943 in the hill country of Northeastern Iowa on a family farm that was even then almost a century old. Uncle Bill has written this memoir in two books. In Book 1, Uncle Bill reflects on his experiences of growing up on a farm in the 1940s and 1950s which was not much different from what a farm child a century earlier would have experienced. He relates stories told to him from the previous generation that are in turn amusing, moving, and still relevant to today's world. He also offers his insights on the changes he observed first hand: the transition from the horse to the tractor, the ever-increasing tempo of farm life, and the emergence of the corporate farm, to the detriment of traditional family farm values. In Book 2, Uncle Bill picks up his experiences in 1994 when, at the age of 50, he leaves the farming life in order to join the work force for the first time in his life. He recounts the challenges he encountered, the transitions he made, and especially, the wonderful people he met who would change his life forever, and whom he would change in turn.
