

Installing and Configuring Windows Server 2012 R2 (Lab Manual): Step by Step Guide With Virtual Machine Setup

This book contains the complete virtual lab setup guide and the lab exercises for the 70-410 (installing and configuring Windows Server 2012/R2) MCSA exam. The virtual lab setup guide will help you to create the virtual lab infrastructure on your own laptop/desktop so one can easily perform all the lab exercises mentioned in this book. The steps are mentioned in such a detail that a candidate having the basic knowledge of Windows operating systems and networking fundamentals can also perform the lab exercises without (or least) the need of a trainer or faculty. This book mainly covers the initial implementation and configuration of core services including AD DS, networking services, and Hyper-V Server 2012/R2 configuration.
