

Making Money With Apps: Learn from years of experience of an independent app developer

No matter whether you are planning to become a full-time independent developer or are just programming in your spare time. Making Money with Apps can be of use to anyone who is somehow involved in mobile applications and wants to earn money with it. The strategies described in this e-book will help you - Take the right decisions in planning your apps - Use easy-to-apply techniques to increase the visibility of your apps - Learn how to promote your apps with minimum effort - Maximize the revenue and earn several \$1,000 a month from your apps. It gives newcomers a jumpstart to quickly immerse into the app-money-universe, but also contains insiders tips for people that already have released mobile apps. All the techniques described in the e-book are based on the author's very personal experience and have 100% worked for him. No fake numbers. All statistics and numbers in the book are for real. It contains everything the author knows about making money with apps: All information gathered during years of releasing and tweaking apps, combined in one clean structured book. So this book is THE collection of all the author's experience and knowledge that he gained in the last years as an independent developer. Consider it a very personal Necronomicon for App-Money-Makers :)
