

Algorithms and Complexity: 6th Italian Conference, CIAC 2006, Rome, Italy, May 29-31, 2006, Proceedings (Lecture Notes in Computer Science / Theoretical Computer Science and General Issues)

Here are the refereed proceedings of the 6th Italian Conference on Algorithms and Computation, CIAC 2006. The 33 revised full papers presented together with 3 invited papers address such topics as sequential, parallel and distributed algorithms, data structures, approximation algorithms, randomized algorithms, on-line algorithms, graph algorithms, analysis of algorithms, algorithm engineering, algorithmic game theory, computational biology, computational complexity, communication networks, computational geometry, cryptography, discrete optimization, graph drawing, mathematical programming, and quantum algorithms.

Distributed approximation algorithms for planar graphs Find great deals for Lecture Notes in Computer Science / Theoretical Computer Science and General Issues: Algorithms and Complexity : 6th Italian Conference, CIAC 2006, Rome, Italy, May 29-31, 2006, Proceedings 3998 (2006, Algorithms and Complexity: 6th Italian Conference, Ciac 2006, Rome, Italy, May.
