

McCalpins Layover Guide to Rome, Italy (McCalpins Layover Guides Book 2)

McCalpins Layover Guides are aimed specifically at the Layover Traveler who has a few hours in a location, rather than a few days. While most travel books are recite long lists of restaurants and hotels, the Layover Guides are aimed at the needs of the Layover Traveler: how are the airport(s) or cruise port laid out, how do you use local transportation, how do you deal with local issues such as language and currency, what can you see in a short time, and - most importantly - how do you get back in plenty of time for your flight or cruise. Rome, Italy has two major airports, one a hub for Alitalia but serving most international airlines and the other an airport with charter and discount carrier service. In addition, Rome uses the port facilities in Civitavecchia, often called the port of Rome. McCalpins Layover Guide for Rome, Italy will show you what you can do in the Rome area with a few hours or an all day cruise stop.
