

Eminent Naturalists (Classic Reprint)

Excerpt from Eminent NaturalistsThe age in which we live necessitates brevity, and average readers have not time for the perusal of voluminous biographies. It appeared to the author that there was a need of short yet comprehensive sketches of some leading naturalists, and he has attempted to supply that want. His desire has been throughout to stimulate a desire, particularly in the minds of the young, for Natural Science. Elementary lessons in Botany, Geology, and other subjects of a similar nature are now given in many Board and voluntary schools, and the author will be glad if this little book reaches the hands of some of these young students. He has endeavoured to interest the reader in the lives of a few of the men of light and leading in the study of nature.About the PublisherForgotten Books publishes hundreds of thousands of rare and classic books.
