

## Lives of the Laureates - 3rd Edition: Thirteen Nobel Economists

Lives of the Laureates provides a condensed and personalized history of modern economic thought, with some of the most eloquent and important contributors to that history as guides. William F. Sharpe of the Graduate School of Business at Stanford, Ronald H. Coase of the University of Chicago, and Douglass C. North of Washington University are the distinguished trio of American economic laureates who have added their invaluable insights to this new edition. They are joined by Franco Modigliani, James M. Buchanan, Robert M. Solow, Paul Samuelson, Milton Friedman, W. Arthur Lewis, Lawrence Klein, James Tobin, George Stigler, and Kenneth Arrow in a series of autobiographical essays that describe each economist's personal and professional development.
