

Multimedia Content Analysis and Mining: International Workshop, MCAM 2007, Weihai, China, June 30-July 1, 2007, Proceedings (Lecture Notes in Computer Science)

Prominent international experts came together to present and debate the latest findings in the field at the 2007 International Workshop on Multimedia Content Analysis and Mining. This volume includes forty-six papers from the workshop as well as thirteen invited papers. The papers cover a wide range of cutting-edge issues, including all aspects of multimedia in the fields of entertainment, commerce, science, medicine, and public safety.
