Timeless Tips for Simple Sabotage Simple Sabotage Field Manual Since World War II, US intelligence agencies have devised innovative ways to defeat their adversaries. In 1944, CIA's precursor, the Office of Strategic Services (OSS), created the Simple Sabotage Field Manual. This classified booklet described ways to sabotage the US World War II enemies. The OSS Director William J. Donovan recommended that the sabotage guidance be declassified and distributed to citizens of enemy states via pamphlets and targeted broadcasts. Surprisingly Relevant Sabotage Instructions Many of the sabotage instructions guide ordinary citizens, who may not have agreed with their country's wartime policies towards the US, to destabilize their governments by taking disruptive actions. Some of the instructions seem outdated; others remain surprisingly relevant. Together they are a reminder of how easily productivity and order can be undermined. Here's a list of five particularly timeless tips from the Simple Sabotage Field Manual: Managers and Supervisors: To lower morale and production, be pleasant to inefficient workers; give them undeserved promotions. Discriminate against efficient workers; complain unjustly about their work. Employees: Work slowly. Think of ways to increase the number of movements needed to do your job: use a light hammer instead of a heavy one; try to make a small wrench do instead of a big one. Organizations and Conferences: When possible, refer all matters to committees, for further study and consideration. Attempt to make the committees as large and bureaucratic as possible. Hold conferences when there is more critical work to be done. Telephone: At office, hotel and local telephone switchboards, delay putting calls through, give out wrong numbers, cut people off accidentally, or forget to disconnect them so that the line

cannot be used again. Transportation: Make train travel as inconvenient as possible for enemy personnel. Issue two tickets for the same seat on a train in order to set up an interesting argument.
