

Oracle JD Edwards EnterpriseOne 9.0: Supply Chain Management Cookbook

A cookbook full of practical and immediately useable recipes for real world business implementation of EnterpriseOne Supply Chain Management. If you are a functional consultant, technical consultant/developer, or project manager and want to improve your business perspective of EnterpriseOne SCM, this book is for you. You should have basic knowledge of navigating EnterpriseOne and general supply chain familiarity. Knowledge of the Common Foundation JDE 9.0 module is advantageous; the supply chain business domain knowledge will be an add-on to this.
