

Oracle Single Sign for EBS 12.2 with OAM 11.1.2.3 and OUD 11.1.2.3

This book covers the integration of Oracle EBS 12.2 with OAM 11.1.2.3 having OUD 11.1.2.3 as the identity store. The layout of this book is to give a basic understanding of how the integration is done in a simpler way and can be extended for advanced architecture as well. This book tries to convey to readers the knowledge on single sign on based on real integration done in the lab with all commands and outputs which I assume is the best method for better understanding.
