

Photoshop Elements 10 in easy steps

The number-one consumer selling image editing software goes from strength to strength, and Photoshop Elements 10 in Easy Steps covers its impressively enhanced range of tools. This book covers all standard image editing techniques and also looks at the new features of Elements 10, such as improved special effects and a new range of guided edits to make producing stunning images even easier. It also shows how text can be used to flow along any chosen path, giving images that extra wow factor. Elements 10 also fully embraces social networking, showing how to get the most out of images on Facebook and YouTube. Photoshop Elements 10 in Easy Steps demonstrates both the fun and the functionality of image editing that puts Elements 10 into a league of its own. This book covers versions for both PC and Mac users, making Elements 10 the perfect image editing program for any photography enthusiast.
