Rash Decisions and Growth Experiences from the Best Little Warthouse in Kentucky weaves 35 years of humorous lifetime interactions with patients, peers, students and family into an uniquely entertaining medical tapestry by an experienced and accomplished dermatologist to inspire all medical personnel on how to relate and connect more effectively with their patients. Anyone who has been either a patient or a concerned family member understands the anxiety and fears accompanied by a medical encounter. Through stories and anecdotes peppered with wit and medical wisdom Dr. Tobin has transformed those negative feelings into a positive constructive experience for countless patients and their families. In a time of increasing robotic medical care which distances practitioner from patient, it is refreshingly important for patient and physician alike to learn that laughter is truly the best medicine.
