

The Distraction Addiction

Getting the Information You Need and the Communication You Want, Without Enraging Your Family, Annoying Your Colleagues, and Destroying Your Soul The question of our time: Can we reclaim our lives in an age that feels busier and more distracting by the day? Weve all found ourselves checking email at the dinner table, holding our breath while waiting for Outlook to load, or sitting hunched in front of a screen for an hour longer than we intended. Mobile devices and the web have invaded our lives, and this is a big idea book that addresses one of the biggest questions of our age: Can we stay connected without diminishing our intelligence, attention spans, and ability to really live? Can we have it all? Alex Soojung-Kim Pang, a renowned Stanford technology guru, says yes. The Distraction Addiction is packed with fascinating studies, compelling research, and crucial takeaways. Whether its breathing while Facebook refreshes, or finding creative ways to take a few hours away from the digital crush, this audiobook is about the ways to tune in without tuning out.
