

# SAP SCM-APO Core Interface Function (CIF) and ECC + APO Masterdata - Step by Step: Realtime Digital Highway between SAP SCM-APO and SAP ERP

Core Interface Function or CIF is the Real-time Interface and Digital Highway for data exchange between SAP SCM Advanced Planning and Optimization (APO) System and the SAP ERP System. The CIF functionality applies to all APO Modules such as SNP, DP, PPDS, GATP, TPVS and more that exchange Orders and Master data with the SAP ERP System in Real-time and has examples shared from Real-life implementations. This is Released subsequent to two Books on APO SNP - Part 1 and Part 2 Advanced version released earlier where the CIF Integration was assumed to be active. This CIF Setup and Monitoring applies to any SAP SCM-APO Functional consultant as well as a SAP ABAP developer consultant. Simplicity is easier to consume and anything complex is not. Even today the Core Interface is found to be very hard to maintain and monitor by consultants and issue of inconsistencies in data between SAP ERP and SCM Systems. This book aims to improve the understanding of the Core Interface and the relationships of different types of data transferred over CIF, explain why some errors occur and make the life of a CIF consultant simpler by sharing the CIF Monitoring and Enhancement experiences done during implementations and Support in real life. The Core Interface (CIF) book covers CIF Configuration, CIF Activation, CIF Maintenance, CIF ABAP Enhancements, CIF Queue Monitoring Steps and even basic SAP ECC/R3 master data setup and detailed SAP SCM-APO master data setup ... with SAP System screenshots Visually explaining each and every setup and results like no other book you have seen before. CIF Enhancements Real-life use System User-exit Code has been shared from 10+ years experience on multiple APO Implementations which can be used readily. This is why its a Complete Step by Step Guide. This Kindle Edition is of 304

pages (only 1/3rd of Content is on Kindle), and the Full HTML5 Web Version with 850+ pages for reading Laptop / Desktop and Mobile devices - iTab, iPhone and Android devices is available for Free Download on Proof of this Purchase (If you dont have a Kindle - NO NEED to buy - use my shared Complimentary Copy on Laptop or use this version Kindle App for PC on your Laptop). The Web content is Fully Text Searchable, Printable (Kindle edition is regrettably not but has TOC), zoomable to view SAP screen in detail and also with ability to add bookmarks and reader annotations/notes while learning. Reach out to Author for this after buying the book. eBook is Guaranteed by Author to Please you with a Lot of Hands-on and very VISUAL Content (850+ pages) explained on SAP Screens as compared to any other book you have seen and will easily Replace your any Hardcopy Book on the Subject matter. Additional Guidance from Author is available on Request for Setup of Systems to learn Hands-on. Prior to this Author has Released 2 eBooks on SAP SCM APO SNP (Supply Network Planning) - Base and Advanced which require the CIF Setup in this eBook as a pre-requisite. However the CIF setup is relevant to all other APO Modules. Author was hands-on on APO since year 2000 till 2013 and has taught the Subject to Students in a 2-week Classroom courses for over 410+ students from 2008 to 2013 and has gathered In-depth hands-on knowledge on the APO Subject in DP, CIF, SNP, PPDS, GATP over the years explained in this book.
