

# SAS Structural Equation Modeling 1.1 for JMP

Documents a graphical user interface that provides easy access to structural equation modeling techniques. SAS Structural Equation Modeling for JMP enables you to quickly specify models in graphical form to represent the hypothesized relationships among the variables. It is accessed from the JMP application and uses the SAS/STAT CALIS procedure to perform computations. This title is also available online.

**SAS Structural Equation Modeling 1.3 for JMP - SAS Support** The correct bibliographic citation for this manual is as follows: SAS Institute Inc. 2011. SAS Structural Equation Modeling 1.1 for JMP . Cary, NC: SAS Institute

**Decision Trees What Are They? - SAS Support** A new application, SAS Structural Equation Modeling for JMP 1.1, features a graphical model builder that is useful for creating these interrelated models.

**SAS Structural Equation Modeling 1.1 for JMP** This Level D Q&A Reader offers consistent model sentences - three - four sentences per page and building the .
