

Seduction: A Celebration of Sensual Style

Seduction is the first book to explore the sensual style of the seductress, from Marie Antoinette and Madame de Pompadour in pre-revolutionary France, through the screen queens of 1930s Hollywood, such as Jean Harlow and Marlene Dietrich, to the contemporary sex sirens of today, Madonna and Jennifer Lopez. In chronological, themed chapters, international fashion authority, Caroline Cox explores the art of seduction, examining the many ways in which women have used their environment, clothes, and behavior to create a seductive allure. The lively and authoritative text is accompanied by gorgeous new and vintage images. Seduction is a visual feast and a fascinating study of the development of a woman's means of seduction throughout the centuries.
