

Septimius Severus: The African Emperor

In this, the only biography of Septimius Severus in English, Anthony R. Birley explores how Roman or otherwise this man was and examines his remarkable background and career. Severus was descended from Phoenician settlers in Tripolitania, and his reign, AD 193-211, represents a key point in Roman history. Birley explores what was African and what was Roman in Septimius' background, given that he came from an African city. He asks whether Septimius was a typical cosmopolitan bureaucrat, a new Hannibal on the throne of Caesar or principle author of the decline of the Roman Empire?
