

Software Composition: 5th International Symposium, SC 2006, Vienna, Austria, March 25-26, 2006, Revised Papers (Lecture Notes in Computer Science)

This book constitutes the thoroughly refereed post-proceedings of the 5th International Workshop on Software Composition, SC 2006, a satellite event of the European Joint Conferences on Theory and Practice of Software, ETAPS 2006. The book presents 21 revised full papers reflecting current research in software composition to foster development of composition models and techniques by using aspect-oriented programming, specification of component contracts and protocols, and methods of correct components composition.
