

## Southern Gothic Novel: The Aberdeen, Mississippi Sex-Slave Incident

There are 5,218 people living in Aberdeen, Mississippi. This is the story of 17 of them. And. The men that caused all of the trouble. 2009s Drama Desk Award nomination for Outstanding Solo Performance, this play was the critical darling of the season for its revelation in storytelling. The whole thing started when Viola Haygood, the Assistant Librarian at the Charles B. Evans Memorial Library, fell in love for the umpteenth time. This one was new in town. He was tall. He was dark. He was handsome. And he smelled really good. It was the dark coincidence of his arrival that caused the locals to comment. Someone was kidnapping Aberdeens young women. They were eating cheese nachos at Big Otiss Saloon one night and gone the next. Not so much as a by-your-leave. The town was getting nervous. They were locking the stately front entries of their antebellum homes and the aluminum screen doors of their double-wide trailers. For the first time. Ever. They would have called in the FBI but they didnt have to, as that particular organization was proud to boast a national office on Aberdeens Main Street that runs along the scenic banks of the Tombigbee River. This was a town in an uproar. Dirty deeds being done dirt cheap. Women being snapped up and carted off to who knows where. FBI running up and down the streets like they knew which way was up. Reporters descending like locusts. Lawyers locking and loading. Its hard to believe that one person portrayed all of this on stage without costume or set pieces. This is the book of a play-based on a book that was never written-that feels like a movie!
