

A+ Complete Lab Manual

A+ is a vendor-neutral certification for PC service technicians. The A+ program is developed by the Computing Technology Industry Association (CompTIA), which is supported by major computer hardware and software vendors, distributors, resellers, and publications. To become certified, a candidate must pass two modules: the Core module (which covers hardware and essential concepts) and the DOS/Windows module (which covers DOS, Windows 3.1x, and Windows 95).
