

## The Accidental Naturalist

For as long as he can remember, Ben Fogle has been surrounded by creatures great and small. As a young boy his best friends were Liberty and Lexington, the family dogs. Then there was Milly the puma-sized cat, Jaws the goldfish and three very charismatic parrots, not to mention a whole host of weird and wonderful animals that came through the doors of his fathers veterinary practice. Then came Inca, Bens adorable black Labrador, who changed his life. Since first melting the nations heart on Castaway, the duo have been inseparable. With Incas help, Ben was soon charming worms and tickling trout on Countryfile, minding the big cats on Animal Park and fronting the BBCs coverage of Crufts. Bens passion for wildlife has taken him all over the world, from the plains of Africa to the sea ice of Antarctica. He has played with penguins, been chased by bull elephant seals and tapirs, and helped operate on a cheetah. He has given mud packs to rhinos, bathed with elephants and risked life and limb diving with Nile crocodiles, all the while campaigning tirelessly for conservation, the environment and animal welfare. Hair-raising, heart-breaking and wildly entertaining, The Accidental Naturalist tells the extraordinary true stories of Bens amazing encounters with animals and how they changed his life.
