

The Duck Theory

Lawrence J. Rupp is the kind of cop who walks into a group of drug dealers in South Los Angeles and pulls up a milk crate for a chat. Hes the officer with all the good stories. Even on his honeymoon in Mexico, on a chartered flight, along with twenty-one other passengers, the new couples plane crashed into a swamp mixed with sewage water overspill and loaded with hundreds of crocodiles, snakes and leeches. In his mostly hilarious, sometimes sad, and always honest debut book, *The Duck Theory*, Rupp shares a cross-section of some of his most hair-raising experiences on the police force. He describes patrolling the streets on the hunt for crooks; in the world of law enforcement, sometimes the old adage, If it looks like a duck, walks like a duck, its probably a duck, is truebut sometimes its not. Rupp candidly details having to confront and analyze offenders daily behavior in order to categorize them as a threat or simply as people enjoying themselves on the wrong side of the law. Full of stories that could each be its own action movie, *The Duck Theory* will surprise you again and again with its honesty, humor, and insight into the baffling world of Los Angeles crime.
